

Akhila Anemoni

Hyderabad, India | +917981750431 | [LinkedIn](#) | anemoniakhila123456@gmail.com

SUMMARY

Computer Science and Engineering student skilled in Python, MySQL, Data Structures, Algorithms, Machine Learning, and Web Development. Experienced in building AI-ML projects, with MySQL applications, and cloud-based solutions. Strong in problem-solving, debugging, and teamwork.

EXPERIENCE

Junior Software Engineer | Datalake Solutions Pvt Ltd | Onsite **May 2026 - Present**
Developed and maintained React.js applications with bug fixing, feature enhancement, and database synchronization optimization.

Software Engineer Intern | Datalake Solutions PVT LTD | Onsite **Feb 2026-May 2026**

- Assisted in software development, debugging, Jira task management, and database synchronization using SymmetricDS

Software Engineer Intern | Infosys Springboard | Remote **Jul 2025 - Present**

- Contributed to the development and testing of a web application for the Cloud, focusing on front-end and back-end functionalities.

Machine Learning Intern | Saiket Systems | Remote **Aug 2024- Sep 2024**

- Performed EDA, data cleaning, and machine learning model development for data-driven problem solving.

AI internship under Microsoft & SAP's TechSaksham initiative| Remote **Nov 2024-Dec 2024**

- Completed AI based Attendance Management System & gained experience in AI- ML , Python
-

EDUCATION

BTech -Data Science

Holy Mary Institute of Technology and Science| Hyderabad | CGPA : 9.40

2022 – 2026

SKILLS

- Technical Skills: Python, HTML, CSS, JavaScript ,React JS
 - Query Language: MySQL
 - Core Concepts: Data Structures and Algorithms, Software Development Life Cycle
 - Soft Skills: Problem Solving, Team Management, Leadership, Communication, Critical Thinking
 - Frameworks & Tools: OpenCV, YOLOV3, Support Pilot, SymmetricDS
-

PROJECTS

- Attendance Management System Using Face Detection**
Built an AI-powered attendance system using Python, OpenCV, and SQL for real-time facial recognition and attendance.
 - AI-Based Scarecrow Using YOLOV3 Algorithm**
Developed a real-time animal detection and deterrence system using YOLOv3 and OpenCV to protect agricultural fields from wildlife intrusion. Implemented species-specific audio deterrents triggered upon detection of animals.
 - Smart Municipality Workforce Response System -SIH (Smart India Hackathon)**
Developed a system that enables real-time workforce tracking and automated task allocation for municipal services. Built with Python and database integration to improve response time, transparency, and operational efficiency in civic services.
-

ACHIEVEMENTS

- Selected to National level in **SIH-2025 project- ON SMART MUNICIPALITY WORKFORCE -RESPONSE SYSTEM**
 - Published the paper** in **IJERT(PAPER ID: IJERTV15IS020435).**
 - First Place** – Paper Presentation on Autonomous Vehicles (2024)
 - Runner-up** - poster presentation on Cutting edge technologies in IOT(Out-Of-College KYROS FEST)(2024)
 - Achieved **College First** in Intermediate (MPC) with **98%** under Board of Intermediate Education, Telangana.
 - Achieved **college first** in 2nd and 6th sem in BTech with 9.5 AND 9.55 CGPA
-

CERTIFICATIONS

- Python Data structures (2023), Certificate of achievement by **Infosys springboard** on AI ML (2025)
 - AI Transformative Learning with **TECHSAKSHAM (2024)**
 - Machine learning internship with **SAIKET SYSTEMS (2024)**
-
